

# Turn Your Light On Me

[Lucy Schwartz](#)

Throw your hands into the fire and see what you have left  
Leave your home if it is holding you and see what you can get  
I know youâ€™d like to get to heaven, but not just yet  
So while youâ€™re waiting in your darkest hour  
Donâ€™t forget

Turn your light on me  
Turn your light on me

I bet youâ€™re tired of being pushed and pulled and turned inside out  
Must be hard to be the spectacle of a watchful crowd  
I know youâ€™d like to get to heaven, but not just now  
So if they throw you in the lionâ€™s den, donâ€™t let me down

Turn your light on me  
Turn your light on me

The later you win,  
Thicker the skin, thicker the skin  
The length that you lose,  
Lets you begin, lets you begin

Turn your light on me  
Turn your light on me
