Boris

Yezda Urfa

He said baby,
Come up to the office
You sang at my party
I owe you some money
You owe me your lips
I'm gonna give tips
I heard your boyfriend is out of townBaby,
Aren't you hungry
I could feed you cookies
I could get my car keys
Oh what a cute dress
But right now it's useless
I heard your boyfriend is out of townI said you should get out of town too
I said you should get out of town tooHe said baby,
I know you like me
You know everyone does
Really I'm serious
We could have real fun
And we're only young once
I heard your boyfriend is out of townBaby,
Where are you going
Don't be such a diva
You can't just leave now
Come back don't bore me
You can't just ignore me
Isn't your boyfriend out of town?I said yes,
And you should get out of town too
I said you should get out of town too
I said you should get out of town tooHe said baby,
Come up to the office
You sang at my party
I owe you some money
You owe me your lips
I'm gonna give tips
I heard your boyfriend is out of town
