Kings & Queens

Urban Cone

Lets race a flight like movie stars, lets steal a car
And run away, away from home
Lets try and make them understand
What we want, and what we need
And what we're born to do
I'm not the one you used to know
I'm not the one you used to know

Run with me, through all cities
Someday we'll be kings and queens
Run with me, through all cities
Someday we'll be kings and queens

Let's talk about your biggest dreams, who you are
No boundaries here, we're on our own
Lets try to make me understand, what you want
And what you need, and what you're born to do
You're not the one I used to know
You're not the one I used to know

Run with me, through all cities
Someday we'll be kings and queens
Run with me, through all cities
Someday we'll be kings and queens

Just run with me, through all cities
Someday we'll be kings and queens
Run with me, through all cities
Someday we'll be kings and queens
