Tourist

Yuna

I guess I'll hang around a little while, while you here
No, I don't feel like being somewhere else
I guess I wouldn't mind to fall in love a little bit
Ouch, I think I fell a little more
Hanging on to nothing
I wouldn't change a thing
Stay where you are now
Oh no I've said too much
Got both feet in
My dear you fear too much
I'm just a little bit in love ridden
I'm falling in to you
I'm just another tourist making stops, but it's clear
No, I'll never leave without you
Tell another story of love in loss and fear
No, we have another night to kill
Hanging on to nothing
I'd do it all again
Stay where you are now

Oh no I've said too much
Got both feet in
My dear you fear too much
I'm just a little bit in love ridden
I'm falling in to you
Crush through clouds and then we'll know
Don't look back I want you so
Love ridden
I'm falling in to
Love ridden
I'm falling in to you
Oh no I've said too much
Got both feet in
My dear you fear too much
Just keep breathing
Oh no I've said too much
Got both feet in
I hope it's not too much
I'm just a little bit in love ridden

I'm falling in to you
