

# U Donâ€™t Know (feat. Wayne Coyne)

## Alison Wonderland

Don't lose you better than yourself  
Trying to tell me all this faking self  
I see what in really is  
Honest love will never fades  
Give it to me, I can hold my own  
I know what it's like to be alone  
Don't need to keep me in the dark  
Already been, I got that spot

You don't know where it is  
Till someone else to own you  
Someone else to throw your heart away

Expense living come will never go  
Swimming through the deep end, let it show  
Live life, don't wait  
I know you're fake  
All the husband is never enough  
Where were you when I was still in town  
Leave me a phone, all that I know  
What are my soul, know that I'll go
