

Falling Apart

Better Than Ezra

Well, Ive been looking in your eyes
And youve been looking in my eyes
Well, theres a reason you came to this tonight
Theres a reason you came to this tonightCan you tell me?
Can you tell me why things are falling apart?
Theres a reason, theres a reasonCan you tell me?
Can you tell me why things are falling apart?
Theres a reason, theres a reasonAll the fish in the ocean
To all the birds in the sky
To all the hearts that are broken
Well theres a reason you came to this tonightCan you tell me?
Can you tell me why things are falling apart?
Theres a reason, theres a reasonCan you tell me?
Can you tell me why things are falling apart?
Theres a reason, theres a reasonBut this world is not our own
Though we thought that it could be
Yes this world is not my own
Though I wish that it could beCan you tell me?
Can you tell me why things are falling apart?
Theres a reason, theres a reasonCan you tell me?
Can you tell me why things are falling apart?
Theres a reason, theres a reason
