

Burning In the Aftermath

The Suicide Machines

Since 1989 it seems that everyone's forgotten the time when
intercontinental ballistics ruled the
world and the cold war raged [Chorus:] Nuclear Family Nuclear War [4x] Alarming to me it seems that
ignorance is still a disease and how so many
haven't a clue or a care about the threat that still hangs over our heads [Chorus 8x] Burning in the aftermath [4x]
