Come Back to Us

Release The Sunbird

We are waiting for you to come back
We are waiting for you to come back to usYou can't keep going on
We are waiting for you to controlCascading across everything important to us
You can't keep going onAlready able to cut myself down
If I need to in the endYou can't keep going on
You can't keep going on
Going on like this [x8]Already able to cut myself down
If I need to in the endWe are waiting for you to come back
We are waiting for you to come back to us
