Only One Thing

Todd Agnew

Only one thing cannot fail
Only one thing will never die
Only one thing is sure and stable
Even when I turn and turn and turnOnly one thing, deeper than the ocean
Only one thing is higher still
Only one thing has such devotion
Waiting arms wide until my will gives wayYour love reaches across the miles I raced
To separate me from You
Your love cradles me like a child when I finally reach for You
Your love's beyond my understanding
Only one thingOnly one thing is always faithful
Only one thing is ever pure
Only one thing, completely able
Only one thing will endure foreverYour love reaches across the miles I raced
To separate me from You
Your love cradles me like a child when I finally reach for You
Your love's beyond my understanding
Only one thingI could sing of Your love foreverYour love reaches across the miles I raced
To separate me from You
Your love cradles me like a child when I finally reach for You
Your love's beyond my understanding
Only one thing
