Decay

Mark Tremonti

Don't fight, there's nothing you can do
(Let it get the best of you)
I feel there's nothing I can say
(Look what you've gone and done to me)
Reach down and throw it all awayYou know this fight it can't be won
It can't be wonThey said
All we had we've wasted
Something like decay
You know it won't be long
Before we've spent all our lives complacent
Isn't that a shame?
We've faded for so longGiven a life and no one knew
(Had not one thing to do with you)
Your will is frozen to the core
(You want it less but need it more)
Reach down and feel what you've becomeYou know your fight has just begun, it's just begunThey said
All we had we've wasted
Something like decay
You know it won't be long
Before we've spent all our lives complacent
Isn't that a shame?
We've faded for so long
So longFading like decay
Fading like decay
Fading like decay
Fading like decayThey said
All we had we've wasted
Something like decay
You know it won't be long
Before we've spent all our lives complacent
Isn't that a shame?
We've faded for so long
So long
