Pure Energy

Crossbreed

Pure energyWe're nothing but two lost souls when We set out without an ending Everyone thought we were wasting timeOh, it was such a struggle that never ended On no one else we were dependent We did all we could to get it rightOn an outbound train The breaks from yesterday Ooh, I always wanted to feel this wayOn a sky-high plane Hotter than all the sun's raysAnd it's known to be We are always meant to be released To pure energy, pure energyPure energy Pure energyFound ourselves in a situationYet there always was a complication What we wanted was so hard to find So we had to keep on moving Only time was time for losing Couldn't waste a minute of our livesWe've been traveling for days Now we're so far away Ooh, only stars will light our wayIn this close to lonely world Sometimes I'm just a lonely girl But you gotta know That we were always meant to be released To pure energyPure energy, pure energy Pure energy, pure energy Pure energy
