The Expedition

Monkey Trick

Where are you?Seek and find... I'll seek and find it
Lost in a minute, I'll work to time it
Cause when you're lost... I'll seek to come there
It will all be better, with answersI'll go
But, I don't know
What's the right way through to you... to youWhere are you?Seek and find... I'll seek to find it
Trapped in dark vision, I'll try to blind it
Cause when you're hurt... I'll seek to help you
It will all be answered, in truthI'll go
But, I don't know
What's the right way through to you... to you.. oh ho...Where are you?Cutting through this jungle
Plant by plant
I'm asking,... are you gonna take... take... my hand?Seek and find... I, I found it, found it, found it
