

You're Not from Here

[**Lara Fabian**](#)

I don't know what is going on
You turn around and touch my heart
A silent moment speaks the truthSomething has happened all at once
It should have scared me in advance
But I was falling in those eyes of yoursAnd so fear was gone
I knew there was nothing else I'd ever wantI know you, you're not from here
I've waited for you to appear
To take my breath away and make me weepYou're not from here, not from this here and now
Just a touch of yours and I fly, I fly and I flyI can't get used to missing you
If this is how it's gotta be
I need an angel to watch over meNo one can hold the hands of time
But I can hold you in my mind
Over and over like a melodyFor now, I'll stand still
For now, I'll be filled by the memory of your skinI know you, you're not from here
You don't belong to lies and tears
The greatness of your soul makes me weepYou're not from here, not from this here and now
Just a touch of yours and I fly and I fly and I flyYou're not from here
I've waited for you to appear
To take my breath away and make me weepYou're not from here, not from this here and now
Just a touch of yours and I fly and I fly and I fly
