It's All Over

HEADSTONES

Over the moon
And over the top
And over the people, yeah
Who told you to stopIt's all over
It's all over
Just like I told you
It's all overOver the sky
And into the future
You do what you can in this world
You do just what suits youIt's all over
It's all over
Just like I told you
It's all overWalking hand in hand with my addiction
Dig out twist and turn but I ain't built to burn
You think I'm swinging, then I kickYou're under my skin, you're between the breaths
You're trolling for friends in a ghost town
It's called uselessness, yeahIt's all over
It's all over
Just like I told you
It's all overWalking hand in hand with my addiction
