

Something About Us (Latin Radio Edit)

No Angels

I bet you think we don't know how to be a part of this game
We don't want to talk about the reason but it's true
We are not the same
I bet you think what we had is like a picture with no frame
Baby don't worry and remember the right people know our name You try to figure out is it real is it show
I don't want to hear this nasty stuff
'Cause you don't know the things I know
Don't ask me what it's all about
You've gotta understand
We're doing things we want to do, we're chosen to
We're trying to be as real as we can
Here's something about us straight from the heart
We belong together right from the start
Destiny told us there is no doubt
Respect is what it's all about I bet you think we don't know what we have got to do
'Cause every time you come around you act like we don't have a clue
And I bet you think we still care if you will like us too
But we are through, yeah You try to figure out is it real is it show
I don't want to hear this nasty stuff
'Cause you don't know the things I know
Don't ask me what it's all about
You've gotta understand
We do the things we want to do, we've chosen to
We try to be as real as we can There's something about us straight from the heart
We belong together right from the start
Destiny told us there is no doubt
Respect is what it's all about There's something about us you can't explain
The only thing we're here for is to entertain
Destiny told us not to run away
We will make it anyway God please save us we are just five angels
We are puppets on a string
God please help us we don't earn any money Something about us
This is coming from our heart
We belong together right from the start
Destiny told us there should be no doubt Something about us
It's something that you can't explain
All we want to do is to entertain
Respect is what it's all about It's something about us straight from the heart
We belong together right from the start

Destiny told us there is no doubt
Respect is what it's all aboutIt's something about us you can't explain
The only thing we're here for is to entertain
Destiny told us not to run away
We will make it anyway
