We Own the Night

Second Sun

We live where there's no tomorrow, no past no rules to follow
Consumed by the innocence we take
We live out all of our days in the absence of light
Just one kiss as the lovers unite and I, I feel my temperature rise
We got to get up, get up, get out, come on, baby
We own the night you and I, we're gonna live forever
It's in the starts we'll never die if we stay together
(We own the night)
I feel the blood in my heart start pumping
(We own the night)
Two souls in the throws of nothing
We own the night you and I if we stay to, stay together now
Give into a heart's desire, moon drunk couldn't get much higher
No shame for the animals we are
Pale white with the kill cursed hunger
Twilight is the spell we're under tonight, we never felt so alive
We got to get up, get up, get out, come on, baby
We own the night you and I, we're gonna live forever
It's in the starts we'll never die if we stay together
(We own the night)
I feel the blood in my heart start pumping
(We own the night)
Two souls in the throws of nothing
We own the night you and I if we stay to, stay together now
Alright
We own, we own, we own the night, n-n-night
Baby, let's go, baby, let's go
Come on, we got to get up, get up, get out, come on, baby
We own the night you and I, we're gonna live forever
It's in the starts we'll never die if we stay together
(We own the night)
I feel the blood in my heart start pumping
(We own the night)
Two souls in the throws of nothing
We own the night you and I if we stay to, stay together
Stay to, stay together now
