Kill The King

Stratovarius

Danger, danger the queen's about to kill
There's a stranger, stranger life about to spill
Oh no, move me out of harm
I need a spell and a charmFly like the wind
No pawn, be gone
Speed on and onKill the king
Tear him down
Kill the king, yeah
Strike him downPower, power it happens every day
Power, power all along the way
Oh no, move me out of harm
I need a spell and a charmFly like the wind
No pawn, be gone
Speed on and onKill the kingTreason, treason, the spectra looms again
Treason, reason, the realm is safe and then
Oh no, move away from harm
I need a spell and a charmFly like the rainbow
No pawn, be gone
Speed on and onKill the king
[Incomprehensible]
Kill the king
[Incomprehensible]Kill the king
He'll rule no more
Strike him dead
The people roarKill the king, yeah
Got to take his head
Down, down, down, downOh kill
Oh kill
Oh, oh
