

# Kill The King

## Stratovarius

Danger, danger the queen's about to kill  
There's a stranger, stranger life about to spill  
Oh no, move me out of harm  
I need a spell and a charmFly like the wind  
No pawn, be gone  
Speed on and onKill the king  
Tear him down  
Kill the king, yeah  
Strike him downPower, power it happens every day  
Power, power all along the way  
Oh no, move me out of harm  
I need a spell and a charmFly like the wind  
No pawn, be gone  
Speed on and onKill the kingTreason, treason, the spectra looms again  
Treason, reason, the realm is safe and then  
Oh no, move away from harm  
I need a spell and a charmFly like the rainbow  
No pawn, be gone  
Speed on and onKill the king  
[Incomprehensible]  
Kill the king  
[Incomprehensible]Kill the king  
He'll rule no more  
Strike him dead  
The people roarKill the king, yeah  
Got to take his head  
Down, down, down, downOh kill  
Oh kill  
Oh, oh
