Left Foot Stepdown

The Bees

I tremble down if your love
Crumbles down for my love
The pressure's down when your love
Lifts me up to the moon like a doveWhen your feelings get put to the ground
You can do the left foot stepdown
Do yourself some rightIf you're being held back with the crowd
You can do the left foot stepdown
Do yourself some rightThe word is love when your life
Needs to be full of light
And when the sun meets the night
Prepare yourself for the world and the fightWhen your feelings get put to the ground
You can do the left foot stepdown
Do yourself some rightIf you're being held back with the crowd
You can do the left foot stepdown
Do yourself some rightNow you found out your sound
Don't be too proud to turn around
Don't let it pass, it's here to last
Raise it up like a flag on the mastWhen your feelings get put to the ground
You can do the left foot stepdown
Do yourself some rightIf you're being held back with the crowd
You can do the left foot stepdown
Do yourself some rightWhen your feelings get put to the ground
You can do the left foot stepdown
Do yourself some rightIf you're being held back with the crowd
You can do the left foot stepdown
Do yourself some right
