

# Left Foot Stepdown

## The Bees

I tremble down if your love  
Crumbles down for my love  
The pressure's down when your love  
Lifts me up to the moon like a dove When your feelings get put to the ground  
You can do the left foot stepdown  
Do yourself some right If you're being held back with the crowd  
You can do the left foot stepdown  
Do yourself some right The word is love when your life  
Needs to be full of light  
And when the sun meets the night  
Prepare yourself for the world and the fight When your feelings get put to the ground  
You can do the left foot stepdown  
Do yourself some right If you're being held back with the crowd  
You can do the left foot stepdown  
Do yourself some right Now you found out your sound  
Don't be too proud to turn around  
Don't let it pass, it's here to last  
Raise it up like a flag on the mast When your feelings get put to the ground  
You can do the left foot stepdown  
Do yourself some right If you're being held back with the crowd  
You can do the left foot stepdown  
Do yourself some right When your feelings get put to the ground  
You can do the left foot stepdown  
Do yourself some right If you're being held back with the crowd  
You can do the left foot stepdown  
Do yourself some right
