

# Hit You With the Real Thing

## Westlife

It's 99 degrees and the temperature is creeping up  
I felt your foundation vibrate, a mountain might erupt  
I've almost got you there so let me take you all the way  
A taste is stimulating, keep you hot like What, take it till you're high and low  
Like how, system overload  
Like who, sure you wanna rock the boat  
And hit you with the real thing What, rock you from the left to right  
Like how, electro paradise  
Like who, if you wanna up your line  
And hit you with the real thing Taste the infinity and mysteries surrounding you  
Erotic stereo kicks in the bass and treble too  
Come hold your hands above your head and let them levitate  
And be hypnotic and the trip won't stop like What, take it till you're high and low  
Like how, system overload  
Like who, sure you wanna rock the boat  
And hit you with the real thing What, rock you from the left to right  
Like how, electro paradise  
Like who, if you wanna up your line  
And hit you with the real thing Need you more than enough  
Ecstasy till you're insane, yeah  
Find adrenaline rush  
Feel the power through your veins  
And hit you with the real thing Bring it till you're high and low, system overload  
I'm gonna show you how I'm rocking the boat  
Rock you from the left to right, electro paradise  
I'm gonna hit you with the real thing It's 99 degrees and the temperature is creeping up  
I felt your foundation vibrate, a mountain might erupt  
Come hold your hands above your head and let them levitate  
And be hypnotic and the trip won't stop like What, take it till you're high and low  
Like how, system overload  
Like who, sure you wanna rock the boat  
And hit you with the real thing What, rock you from the left to right  
Like how, electro paradise  
Who, if you wanna up your line  
And hit you with the real thing Take it till you're high and low  
System overload  
Sure you wanna rock the boat  
And hit you with the real thing What, rock you from the left to right  
Like how, electro paradise

Like who, if you wanna up your line  
And hit you with the real thing
