

Rockin' to the Edge of the Night

[Trixter](#)

Here comes the weekend
I'm all worked up and ready to go
Let's go off the deep end
Enjoy the party from coast to coast
Call out to everyone
The time is here
Don't walk, you'd better run
My boulevard is clear
Baby when we rockin' to the edge of the night
Out of the cage it feels so right
Rockin' to the edge of the night
So get on ready my friends, we're gonna rock the night
Singing and dancing,
This the world we're living for
Got your change: a little late romancing
Hit the lot and lock all the doors
Call out to everyone
The time is here
Don't walk, you'd better run
My boulevard is clear
Baby when we rockin' to the edge of the night
Out of the cage it feels so right
Rockin' to the edge of the night
So get on ready my friends, we're gonna rock the night
Baby when we rockin' to the edge of the night
Out of the cage it feels so right
Rockin' to the edge of the night
So get on ready my friends, we're gonna rock the night
So it's back to work
Another week of nine of five
Raise a glass for what it's worth
Cause the midnight comes a-blazing
Baby when we rockin' to the edge of the night
Out of the cage it feels so right
Rockin' to the edge of the night
So get on ready my friends, we're gonna rock the night
