

# Know

## Pegz

I will never feed off  
The evergreen luster of your heart  
    All because we all live  
    In the valley of the walls  
    When we speak  
    We can peak from the windows  
    Of their mouths to see the land  
The women chant as they fly up to the sun  
    You never think you know, why  
    Know, you never think you know, why  
    Know, ever think you know, why  
    Know, know, know  
    Books all say different things  
    While people flap their yellow wings  
    Trying to soar by being a whore of life  
    And almost everything  
The sheep that ran off from the herd  
    May be dead but now's a bird  
    Able to fly able to die  
  
    Able to break your cursed earth  
    You never think you know, why  
    Know, you never think you know, why  
    Know, ever think you know why  
    Know  
    On the other side, the other side, other side  
Do you ever try to fly, do you ever try to fly?  
    Have you ever wanted to die  
    You ever want to die?  
    Don't ever try to fly, don't ever try to fly  
    Don't ever try to fly  
Unless you leave your body on the other side  
    Never try to die, you ever try to die.  
    Know, you never think you know, why  
    Know, you never think you know, why  
    Know, you never think you know, why  
    Know, ever think you know, why  
    Know
