

Don't Turn Me Away

Air Supply

We shared such a special love, it seemed to have no end
But now it hurts me just to remember
Your eyes used to tell me so much that words could never find
And now you say, you don't know where your future lies
But you've got to find it now or get left behind
Don't turn me away, I can't forget it all in just one day
Take some time to speak your mind but say, "It's not over"
Don't turn me away, don't close the door on us this way
I'm so sure that there's much more you just have to tell me
Remember those fireside nights, it's not that long ago
You said you wanted to stay there forever
I gave you the strength of my hand when things were running low
I didn't know you would go back on what you said
There must be some reasons there that you don't want to share
Don't turn me away, I can't forget it all in just one day
Take some time to speak your mind but say, "It's not over"
Don't turn me away, don't close the door on us this way
I'm so sure that there's much more, you just have to tell me
And just when you needed me I said I'd be there until the end
What is it that's changed in you when all I want is to be your friend?
I need a friend
Don't turn me away
(Don't turn me away)
Don't turn me away
Don't turn me away
(Don't turn me away)
Don't turn me away
Don't turn me away
(Don't turn me away)
Don't turn me away
Don't turn me away, don't turn me away
Take some time to speak your mind but say, "It's not over"
Don't turn me away
Take some time to speak your mind but say, "It's not over"
Don't turn me away
Take some time to speak your mind but say, "It's not over"
