Love Is Love (feat. Pink Oculus)

iET

All I know is when I chance, a touch
And when you receive it and love
Twenty seconds in one hour's enough
To remind me that I need this warmth

All I know is that I can't be alone
Anybody with two eyes and that's grown
That's open to the air that you blow
Keeps me company in this pink abode

But I won't trick to be ignorant to the fact
That I'm like a heatwave, but I bet you felt that
And with all theses flames that could turn the sun black
I'm going against nature, holding this heat back

Spark lit, so addic-dicted
Dis-play in my brain, doing it's bit
With the restrained, all I can do is sit
With flooding eyes and drying ink

When you enter the room, it's unfair
Suddenly my mind gets clear - then goes blank
Struggling not to disappear or be bare
But then no pain exists when you're there

Do whatever, let love lead, even if it leads me to leave
And you're not what I need, and you're just an idea
And I can't even see what you're like for real
Both surprise, both release

Uh-huh-huh
Uh-uh-huh-huh
Uh-uh-huh-huh
Uh-huh-huh

Uh-uh-huh-huh
Uh-uh-huh-uh
Uh-uh-huh-uh

Oh, war

All I want to do is be around your air
And be myself
As naked as I can be with you
If you please, except me for who I am
So I can be free in my,
Love in my,
Trust in my,
Feelings and my,
Self and my...

Mmmmm
Ooh-ooh-oohhh

But love you,
Yeah love you,
Ohh I love you

Oh I never expected to be
Me, again
And oh I'm so excited
To tell you that I want you but -
But - but what?
But what?
Really what?
What is the problem?

Love is love
Love is love
That's all that matters, right?

Love is love
Love is love
Love is love
Love is love

Love is love
Love is love
(I need to know)
Love is love
Love is love
