

Keep All the Fires Burning Bright

Jennifer Rush

Ooh-ooh
Ooh-ooh-ooh You say "Now I am your hunter"
I know I'd better beware
Got me searching for shelter
But I can hear you moving up on me
But you've become my mirror
Knowing you're half-way here
Just a single step nearer
Reminds me why I do not dare There was calling in the dark of night
Though I thought it would leave me alone
Even stronger by the light of day
And I knew that it wouldn't be long You keep all the fires burning bright
You never give up on a fight
I needed to spread my wings and fly
Fly on by, baby Just the words don't come easy
You know it's not as it seems, no
But listen, just don't look twice
Heed the warning to stay clear There was calling in the dark of night
Though I thought it would leave me alone
Even stronger by the light of day
And I knew that it wouldn't be long You keep all the fires burning bright
You never give up on a fight, no
I needed to spread my wings and fly
Fly on by, baby You keep all the fires burning bright
You never give up on a fight, no way
But I needed to spread my wings and fly
Fly on by, baby Maybe
Baby
Someday
Baby
I'll be back and stay You keep all the fires burning bright
You never give up on a fight, no way
I needed to spread my wings and fly
Fly on by, baby You keep all the fires burning bright
You'll never give up on a fight
I needed to spread my wings so high
