

# Part Time Lover

50 Cent

I just wanna tell you, you're special  
You know I meet a lot of beautiful women  
But you, you make me feel good So good  
It's hard to describe you ya know  
It's everything about you I mean, damn  
You make me feel good When I'm gone, girl I miss you, when I'm at home I get with ya  
I be right back in NYC, be my part time lover  
I keep a smile on your face and bring you jewels  
When you thinkin' that at least when you thinkin' of me  
Be my part time lover Me, I'm gon' do my thang, so you can go do your thang  
You wanna fuck 'um, it's aight with me, be my part time lover  
She likes you like I like you, I'm aight with her  
She aight with me, be my part time lover It's more than your body, baby, damn it's your brain  
You make me wanna kiss you like baby kiss Wayne  
And make you call me daddy like baby do Wayne  
Damn that shit sounds gay, it's insane I guess that's the price the lil' nigga pays for fame  
But baby dim the lights now, here more my lifestyle  
I had to be sexual, I wanna get next to you  
I may be get in to you, that's what finna do Girl you in my house, my tongue in your mouth  
My foreplay better then okay, no doubt  
We got our own thing, see you are my bitch  
Just don't ask question about Ciara and shit You saw the video, you heard the radio  
They said it's me and C, you want it to be you and me  
That was just a rumor, come and gimme kisses  
Then clean this place up, go on and wash the dishes When I'm gone, girl I miss you, when I'm at home I get  
with ya  
I be right back in NYC, be my part time lover  
I keep a smile on your face and bring you jewels  
When you thinkin' that at least when you thinkin' of me  
Be my part time lover Me, I'm gon' do my thang, so you can go do your thang  
You wanna fuck 'um, it's aight with me, be my part time lover  
She likes you like I like you, I'm aight with her  
She aight with me, be my part time lover Girl, your ass fat like Joe, you real sweet like Ja  
Say some fly shit and I'ma black your fuckin' eye  
Fab said your pussy and made him better  
So assumin' you a hustla and you get that chedda Go suck it like superhead, deep throat that super dick  
Then come back with big bread, see you's a trooper kid  
T-pain must be psychic, he saying what I think  
I'm by the bar now, bitch, buy me a drink Go on and wipe me down, I bet you like me now

Mo then you eva did this is real shit  
(Ay baby)  
This is why I'm hot, yea this is why I'm hot  
We can party like a rockstar nonstop Here's what she told ya boy, she likes that soulja boy  
She cranked up the ten, cruisin' in the Benz  
I thought you changed girl but you the same girl  
Usher and R. Kelly, you had the best of both worlds When I'm gone, girl I miss you, when I'm at home I get with  
ya  
I be right back in NYC, be my part time lover  
I keep a smile on your face and bring you jewels  
When you thinkin' that at least when you thinkin' of me  
Be my part time lover Me, I'm gon' do my thang, so you can go do your thang  
You wanna fuck 'um, it's aight with me, be my part time lover  
She likes you like I like you, I'm aight with her  
She aight with me, be my part time lover I only need your love part time, be my part time lover, ya know  
Some men require love from 9 to 5, I require love from 12 to 4  
12 at night to 4 in the mornin' and then we leave the hotel It's short stay, baby, it's 50, I'm feelin to move to  
Atlanta, man  
Pack my bags, take my solders with me  
You know I'ma feel like Hip-Hop is seen down there  
Oh, because I run New York, I told you
