

Love Is Everywhere I Go

[Sam Phillips](#)

Going down this [Incomprehensible]
There is no end to the good Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you Burning light inside my dreams
I wake up in the dark
The light is outside my door Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you Chasing every fragment I see
Looking through you
Love is looking for me
Breaking open the clouds
I'm not stranded in time
(Love is everywhere I go) Looking through you
Love is everywhere I go
Looking through you
Love is everywhere I go
Looking through you
