## Love Is Everywhere I Go

## **Sam Phillips**

Going down this [Incomprehensible]

There is no end to the goodLove is everywhere I go

Looking through you

Love is everywhere I go

Looking through you

Love is everywhere I go

Looking through youBurning light inside my dreams

I wake up in the dark

The light is outside my doorLove is everywhere I go

Looking through you

Love is everywhere I go

Looking through you

Love is everywhere I go

Looking through youChasing every fragment I see

Looking through you

Love is looking for me

Breaking open the clouds

I'm not stranded in time

(Love is everywhere I go)Looking through you

Love is everywhere I go

Looking through you

Love is everywhere I go

Looking through you
