Poison Arrow

Doro Pesch

Is anybody out there
who feels the way I do
who knows about the real things
who knows about the truth
find your place-
make it right- reach your goal
listen to your heart
there's no time to lose
the hardest part is
what you gonna choseDon't shoot a poison arrow
through your own heart
Don't ruin the life you live
right from the start
you live and learn
that you don't live to die
you gotta give your blood
give it all you've got
Don't shoot a poison arrow
through your own heartI feel so much hate
surrounding me
I can't take this place
this insanity
let me feel some love
that's what I really needConfusion, illusion
the same old song
nobody's right
when everybody's wrong
take control
play no game
make a stand feel no shame
it's so easy to give in
but it's so hard
to do the right thingDon't shoot a poison arrow
through your own heart
Don't ruin the life you live
right from the start
you gotta leave your mark
and give it all you've got
never settle for less

give it your best shot
Don't shoot a poison arrow
through your own heart
