Second Best

Megan Slankard

I'm being hopelessly optimisticyou're an honest crook
The poor reputation your love gets should make you look
It gets pretty ugly
I'm clearly misunderstood
I'm second best and that's pretty goodI need extra time to see
If those plastic glasses are half full or half empty
It's a sure bet my life's an organized mess
But I'm second best and that's pretty goodI have drawn a
I've drawn a
I've drawn a blank
All those years I was getting old
I can't remember though I must have been told
I was your only one a million times
If you told me once it was a lieIt's after dark
Must be light again
'Twas a near miss
Must have hit 'em
He took everything all that glittered
He said "now then, we mustn't be bitter"It's a little big, but I guess my dream's okay
I can make it if I start today
We're alone together in this relation
Don't feel real, must be a genuine imitationI have drawn a
I've drawn a
I've drawn a blank
All those years I was getting old
I can't remember though I must have been told
I was your only one a million times
If you told me once it was a lieFuzzy logic, you say, but who really cares
It's an exact estimation everywhere
I didn't realize but it's no good to be mad
I'm second best and that's pretty bad
