Show Me Around

Divine

I just got into this town
But it already seems such a bore
Not what you call a small town
But I've seen a hundred like it before.So don't try to take advantage
I just want you to show me the sights
My temperature's up, my energy's high
Gonna cause an explosion tonight.chorus
Show me around, I'm looking for a lover
Show me around, I've seen it all before
Show me around, I'm searching for a brother
Going over the top and I sure as hell ain't going aloneI'm not staying forever
Just long enough to see a little more
I might be new to this place
But I ain't new to the scoreSo don't try to take advantage
Thought I ain't one for acting coy
I'm gonna dress up
I'm gonna show you tonight
That I ain't no country boy(chorus)So don't try to take advantage
I just want you to show me the sights
My temperature's up, my energy's high
Gonna cause an explosion tonight
