

Keep It Undercover

Zendaya

Ooo

Ooo

When danger comes for you
You know I'll stand beside you
'Cause ain't nobody keep their heads so cool
I'll always find a way, a way out of the fire
But don't tell nobody, tell nobody I'm not perfect, so many things I wanna tell you,
But I....

I keep it undercover! Living my life on red alert
Doing my thing, I'll make it work
Know I'm the realest, baby I'm fearless
But I always got your back
Nobody can do it like I can
I gotta find out who I am
Ain't got to worry about me
It's all part of the plan
I keep it undercover
I keep it undercover You know I'll always find the truth
No matter where it's hiding
So can you can always run but you can't hide
Keep it classified, I'll always come out fighting
'Cause it's all or nothing, all or nothing I'm not perfect, so many things I wanna tell you,
But I...

I keep it undercover! Living my life on red alert
Doing my thing, I'll make it work
Know I'm the realest, baby I'm fearless
But I always got your back
Nobody can do it like I can
I gotta find out who I am
Ain't got to worry about me
It's all part of the plan If your back's against the wall
All you got to do is call me
I'm doing the impossible
So you just got to trust me
You ain't got to worry 'bout it,
Ain't got to ever doubt it
I'll be there no matter what it takes...
I keep it undercover! Living my life on red alert
Doing my thing, I'll make it work

Know I'm the realest, baby I'm fearless
But I always got your back
Nobody can do it like I can
I gotta find out who I am
Ain't got to worry about me
It's all part of the plan
I keep it undercover
Keep it undercover
I keep it undercover!
