

# Take a Closer Look At Me

## The Supremes

You ask me from time to time  
About different girls that catch your eyes  
Love is what you're looking for  
But blind may my love you ignore  
Standing right before your eyes  
Is all the love you hope to find  
So, throw away your little black book  
If there's love you want, here I am Just take a closer look at me  
Just take a closer look at me  
Just take a closer look, you'll see in me  
It's love is what you want, baby  
Love is what you need The girls you chose with no big hits  
They struck out with every pitch  
Each new day I never complain  
But same results with different names  
You come to me to straighten your life  
Not with love but my advice  
I'm your friend you know for sure  
Can't you see I wanna be more Just take a closer look at me  
Just take a closer look at me  
Just take a closer look, you'll see in me  
Love, it's love is what you want, baby  
Love is what you need Haven't you noticed how I find  
Clever little ways to steal your time  
Advice I gave for you to take  
From other girls is for my sake  
The very things I said to do  
Are the lovely things I want from you  
I don't wanna seemed so bold  
If you can't see, you gotta be told Just take a closer look at me  
Just take a closer look at me  
Just take a closer look at me  
Just take a closer look at me
