

# Make A Wave (Studio Version)

Demi Lovato & Joe Jonas

They say the beat of a butterfly's wings  
Can set off a storm a world away  
What if they're right and the smallest of things  
Could power the strongest hurricane  
What if it all begins inside  
We'd hold the key that turns the tide Just a pebble in the water (oh)  
Can set the sea in motion (ooh)  
A simple act of kindness (oh)  
Can stir the wildest ocean  
If we show a little love (A little love)  
Heaven knows what we could change, oh yeah  
So throw a pebble in the water, oh yeah  
And make a wave, make a wave  
Make a wave, make a wave  
The single choice to take us change  
Have reached at your hand to someone in need (help somebody)  
Don't fool yourself and say you can't  
You never know what can grow (Let it grow)  
From just one scene (yeah)  
So come with me and seize the day  
This world may never be the same Just a pebble in the water (just a pebble in the water)  
Can set the sea in motion (can set the sea in motion)  
A simple act of kindness (oh)  
Can stir the wildest ocean (stir the wildest ocean)  
If we show a little love (if we show a little love)  
Heaven knows what we could change  
(heaven knows what we could chance)  
So throw pebble in the water (throw a pebble in the water)  
Make a wave, make a wave  
Make a wave, make a wave  
(Make a wave, make a wave)  
Yeah yeah yeah yeah yeah  
Make a wave, make a wave  
Make a wave, make a wave  
(Make a wave, make a wave)  
Show a little love and make a wave  
Seize the day, yeah  
Make a wave, yeah  
(Make a wave, make a wave)

Heaven knows what we could change (oh)

So let's show a little love

You never know what we could change

Just throw a pebble in the water (hmm)

Make a wave, make a wave Oh, oh

Oh ooh ooh haah
