Tropical Love

Marlon D

Look into my heart
It's been bound to yours from the start

Look into my eyes
loves' image wears no disguise

Oh, and you're
like the song that blows through the trees
Native dancer flowing to me
Summer rain for flowers to grow
I need you so...

Treat me baby (treat me baby)
to your tropical love
Give it to me baby (give it to me baby)
your Tropical love

Treat me baby (treat me baby)
to your tropical love
Give it to me baby (give it to me baby)
your Tropical love

Ripe on the vine
You could pick my love anytime

Orchid in bloom
Fragrance of love drifting through

And you
burn like the sun reflecting a dream
Crystal blue and calm as the sea
Evening rain so cool and so slow
I need you so...

Treat me baby (treat me baby)
to your tropical love
Give it to me baby (give it to me baby)
your Tropical love

Treat me baby (treat me baby)

to your tropical love
Give it to me baby (give it to me baby)
your Tropical love

And you
burn like the sun reflecting a dream
Crystal blue and calm as the sea
Evening rain so cool and so slow
I need you so..

Treat me baby (treat me baby)
to your tropical love
Give it to me baby (give it to me baby)
your Tropical love

Treat me baby (treat me baby)
to your tropical love
Give it to me baby (give it to me baby)
your Tropical love
