

# Playin' In the Deep End

[Randy Meisner](#)

House-Meisner

Hey, Suzie, I remember the nights

We were out shakin'

Crosstown rockin' in the backseat

Yea, we were bent on racin'

Was gonna last forever

They were playin' our song

That sweet - soul rhythm

Could do no wrong

Caught every move of that jumped up band on the south-side corner

She had eyes like diamonds and a voice like an angel calling

We had this dancin' madness

It was so supreme

Movin' through the back lights

Livin' our dream

Playin' in the deep end

Playin' in the deep end

Closin' our eyes to the world

Gone by, no, we didn't need a reason

Take me back - take me back

To the days gone by before

Hold on tight, the feeling's right

We're gonna play it out just once more

(Just once more)

Don't you wanna make love tonight

I can see you movin'

Turn out the lights we got a

Long long way to go

It's gonna last forever

'Cause they're playin' our song

Your sweet love darlin'

Can do no wrong

When we're playin' in the deep end
