

# I Wanna Do It For You

## Lonestar

You've been trying to find your true love  
On the verge of giving up  
Tired of your heart breakin'  
You've almost had enough  
It's not supposed to be that hard  
Maybe love is closer than you think  
You could keep on lookin' for the rest of your life  
I'll be what you're lookin' for  
I'll give you somethin' more  
Take you to a place you've never been, never been  
Show you somethin' true that's what you deserve  
Whatever I have to do, I wanna do it for you, yeah  
Remember I'm the one  
To get you on your feet  
Ain't it funny how you turned to me  
When you're feeling incomplete  
I always helped you take a breath  
Now I just wanna take your breath away

Well, I've heard you saying that you need someone like me  
Baby, open up that door  
I'll give you somethin' more  
Take you to a place you've never been, never been  
Show you somethin' true that's what you deserve  
Whatever I have to do, I wanna do it for you, yeah  
I won't hold nothin' back, baby, nothin' at all  
Catch you with lovin' arms if you're ready to fall  
I'll give you somethin' more  
Take you to a place you've never been, no never been  
Show you somethin' true that's what you deserve  
Whatever I have to do, I wanna do it for you  
I wanna do it for you  
I won't hold nothing back, I wanna do it for you  
Listen, baby, I'll give you everything, I wanna do it for you  
Do it for you
