Christ Is On the Lawn

Treble Charger

Lonely, more the night
Candle lost its light
Lines begin to showThere's another kind
Listen here, it's time
Lying just belowShouldn't you believe
Everything you see
'Least as much as all
The things you know
All the things you knowAll the pews are gone
Dealer's wife has left today
Where she went, she wouldn't say
And Christ is on the lawnMove your mouth the same
Just repeat the name
As if it's wrong to youThat's an odd request
Try to do what's best
When you're told it's trueWouldn't you believe?
Someone's bound to see
Mind the shade and
Leave the rest alone
Leave the rest alone
