

# Christ Is On the Lawn

## Treble Charger

Lonely, more the night  
Candle lost its light  
Lines begin to show There's another kind  
Listen here, it's time  
Lying just below Shouldn't you believe  
Everything you see  
'Least as much as all  
The things you know  
All the things you know All the pews are gone  
Dealer's wife has left today  
Where she went, she wouldn't say  
And Christ is on the lawn Move your mouth the same  
Just repeat the name  
As if it's wrong to you That's an odd request  
Try to do what's best  
When you're told it's true Wouldn't you believe?  
Someone's bound to see  
Mind the shade and  
Leave the rest alone  
Leave the rest alone
