

World War III

Anti-Nowhere League

Well we heard these stories yesterday
And now we want to never play
All the things looked better then
Well that's what ? ? meant for me Your history means nothing now
It never meant much anyhow
All your crying is in vain
You're gonna die in screaming pain
Pain
Pain
Pain Well let's roll on World War III
We'll burn in the rubbish of society
Roll on World War III
You're gonna burn with me The stories heard when you were small
Words will mean this most of all
All you do is criticise
About your feather in your eyes Well don't you know that your kids
Your kids grow up and never be
All your crying is in vain
You're gonna die in screaming pain
Pain
Pain
Pain Well let's roll on World War III
We'll burn in the rubbish of society
Roll on World War III
You're gonna burn with me So we told these stories yesterday
And now we want to never play
All the things were better then
Well that's all right ? ? Well don't you know that your kids
Your kids grow up and never be
All you ? ? time will tell
I'll see you bastards all in hell Well let's roll on World War III
We'll burn the scum of society
Roll on World War III
You're gonna burn with me
Burn
Rubbish
Burn
Rubbish
Burn

Burn

Burn

Burn
