

Fast Forward

Lali Puna

I'm going
Fast forward
Alone in the dark
There's no one
Around me
By my side
When you put your hands over your ears
You don't hear me
When you cover your eyes
You don't see me
It's like I've never been here
And you've never known me
They're leaving
I'm staying
Inside me
It's never been
So quiet
Never so clean
When you put your hands over your ears
You don't hear me
When you cover your eyes
You don't see me
It's like I've never been here
And you've never known me
