(The Night Will) Bring You Back to Life

Idlewild

You take my life away
You take my life away
You take my life away
Life away, life awayTo break my life away
To break my life away
To break my life away
Life away, life awayAnd then you look into my eyes
Until I saw the night's surprise
And you saw the night's surpriseAnd you know that the night
Will bring you back to life
And you know that the night
Will bring you back to lifeAnd there's a chance that it might
If it won't take away your life
Then you'll know that the night
Can bring you back
It brings you back to lifeYou break my life away
To break my life away
You break my life away
Life away, life awayYou take my life away
You take my life away
You take my life away
Life away, life awayAnd then I look into your eyes
Until I saw the night's surprise
And you saw the night's surpriseAnd you know that the night
Will bring you back to life
And you know that the night
Will bring you back to lifeAnd there's a chance that it might
If it won't take away your life
Then you'll know that the night
Can bring you back
It brings you back to life
It brings you back to life
