Glow

Moose Blood

I said goodbye today.
I just watched you drive away,
and I just stood with mum and waved.I said goodbye today.
I wish you were in a better way
but now it's done and now you're gone.And I
remember when you took the boat out.
You took it too far,
took it too far.
You took it too far,
took it too far.She came in today,
I just looked at my dad's face.
He was crying, I knew she was lying
when she said you're okay.You're not okay,
no you're not okay
are you?You're not okay
no you're not okay
are you?And I
remember when you took the boat out.
You took it too far,
took it too far.
You took it too far,
took it too far.And I
remember when you took the boat out.
You took it too far,
took it too far,
took it too far,
took it too far.And I
remember when you took the boat out.
You took it too far,
took it too far.
You took it too far,
took it too far.That's just you,
you always took it too far,
took it too far.That's just you,
you always took it too far,
took it too far.
