I Come Alive

Used, The

I'm walking away
With the sand beneath my feet
I wanna stay
But I'm feeling insecure
You touch me
You tell me, you want me
It feels right the first time
My heart is breaking through
I come alive, like awakened from within
I come alive, with your fingers on my skin
I'm falling, deeper, can't rest on my soul
I come alive
You are in bed
Gotta burning into more
This is the night
And you gotta just let go
You hold me
You heal me, you whisper
It feels right the first time
My heart is breaking through
I come alive, like awakened from within
I come alive, with your fingers on my skin
I'm falling deeper, losing your control
Flying higher, can't rest on my soul
I come alive
You touch me
You tell me, you want me
You hold me, you heal me
You whisper
I come alive like awakened from within
I come alive, with your fingers on my skin
I'm falling deeper, losing your control
Flying higher, can't rest on my soul
I come alive, can't rest on my soul
I come alive, losing my control
I come alive
