Matrix

Temas de Filmes

I see your face in a masquerade
I see your made up smile
When the show is over what is left behind?
Its in your eyes, its in your hair
How come they say opposites attract?
When all you feel is a struggle deep inside?Don't tell no lies, no more disguise
I'm tracing the matrix of my life
The damage is done, you don't belong
Deep down in the matrixI'm feeling pushed, from left to right
Is this the way it's meant to be?
Is my destiny crawling on my knees?Now who is right? And who is wrong?
Who is the one that won't belong?
Who's for real? And who's just pretending to be?Don't tell no lies, no more disguise
I'm tracing the matrix of my life
The damage is done, you don't belong
Deep down in the matrix
No more lies, no more disguise
Into the matrix(Into the matrix)No more lies, no disguise
I'm tracing the matrix
No more...lies, no more disguise
I'm tracing the matrix of my life
The damage is done, you don't belong
Deep down in the matrix
No more lies, no disguise
Tracing the matrix of my life
The damage is done, you don't belong
Deep down in the matrixInto the matrix
