

Gemini

Slayer

Endure the pain, you know my name
I am your soul insane
I am no one, no one who cares
I am your soul despair
Your fear deceives vulnerability
Leavin' an easy prey
Consume your mind, a power so divine
Will take and rape you blind Gemini, master of demise
Your death is my salvation to a kingdom mine
My Lord is my light, the master of darkness
Your death is my salvation to a kingdom mine You look at me with eyes of fate
And see the graphic truth
Your ignorance cannot shield you
From your naked abuse
Numbin' of your moral sense
Facin' reality
That life is unconditional
And death is only the beginning The pain will never end
