

# Moniker

[ARI](#)

I am the warring period  
I am the warring period  
I am the point in time  
That makes you take it in  
I am the dying plague of old  
I am the one that you call home  
I am all there was- and all they'll ever be  
Renaissance man with your heart in your hand  
Sing along to the victory plan  
Play us off with the snare of your clan  
Gamble pride in exchange for land (x2)(Warring Period Verse)  
What is the point of dying alone?  
When every nation is just skin and bone  
They've been around ever since the start  
Why can't everyone just play their fucking part?  
I will always be first.  
You will always be second best (x2)(Warring Period Verse)
