

# Under the Sun

## Enchant

All I see, fruits of my own labor  
All in vain, all for nothing real  
All I taste disappoints in flavor  
What I know is fighting what I feelThis is no time to be distracted  
Time lost can never be regained  
Don't let yourself become attracted  
This need has got to be restrainedWhere is the treasure? I know there is one  
I've looked everywhere under the sun  
I'll search and I'll fail, and be dead when I'm done  
But I've looked everywhere under the sunAll I've seen seems to lack in color  
All I've held crumbles in my hands  
Desperately needing something that will  
Fill this hole, seems like nothing canIt's time you find out what's important  
This futile chase has got to end  
Don't let your conscience lie there dormant  
The truth can break but never bendWhere is the treasure? I know there is one  
I've looked everywhere under the sun  
I'll search and I'll fail, and be dead when I'm done  
But I've looked everywhere under the sunI've spent my life searching for something  
To keep me constantly content  
And now I'm left here with a longing for what I've spentThis is no time to be distracted  
Time lost can never be regained  
Don't let yourself become attracted  
And live your life only to gainWhere is the treasure? I know there is one  
I've looked everywhere under the sun  
I'll search and I'll fail, and be dead when I'm done  
But I've looked everywhere under the sunAll I see, fruits of my own labor
