

Wonderland

Caravan Palace

Just imagine a trip to a wonderful land

Of candy, and jam, and ice cream

-Eerie Vocies-

I gotta hit that street you better watch it

with a gat that I pack with a full clip

I got the whip, got the (?) that I keep it undercover,

all up in the cup, just to live it up

See the stone cold face, try to knock it

I can't (?) never walk on my rocket

I gotta beat in it, I gotta (?) in it

I gotta be-ba-da-be-ba-da-be-da-be-it

...

See the big gold chain that I'm rockin'

I got the ring for the bling, never drop it,

I got a stash full of cash that I owe to my daughter

All up in the cup, Just to live it up

And the streets turn cold when I walk it

It's my rules no man can stop it

I throw a kick so quick that'll leave you in the gutter

Leave you in the gutter, gutter, gutter...

...

All up in the cup, All up in the covers...

Just imagine, Wonderful land

Why do all these things never happen

I'm just a random girl with gentle manners

If my dreams aren't rocked and I rule the wonderland...

All up in the cup, all up in the covers.

...

End
